What is CM/GC

- CM/GC Delivery Method
 - 2 Phase Approach, Designers Employed by SANDAG
 - Pre-Construction Services
 - Value Engineering
 - Constructability
 - Work Planning, Phasing and Sequencing
 - Scheduling
 - Cost Estimating
 - Construction Services (General Contractor – Prime)
 - Self-Perform
 - Sub-Contract
 - Full Service: Quality Program, Public Information

THE TEAM

MID-COAST TRANSIT CONSTRUCTORS

Mid Coast Transit Constructors (MCTC) is a fully integrated Joint Venture of Stacy and Witbeck, Herzog, and Skanska. We have combined these three highly successful construction organizations to bring a collection of talents uniquely suited for the CMGC 1 projects. MCTC team members are heavy civil constructors specializing in CM/GC contracting for rail projects. We are experts at self-performing rail and bridge work proudly managed and built by our own forces.

In the past 10 years our firms have constructed over 600 miles of track for passenger service. Together, our CM/GC experience includes more than 30 rail transit projects with a total value of over \$4.7 billion.

- Double Track Heavy Rail extension over Balboa Ave and Under SR52
- 3 miles of new tracks
- Project is within existing MTS R/W

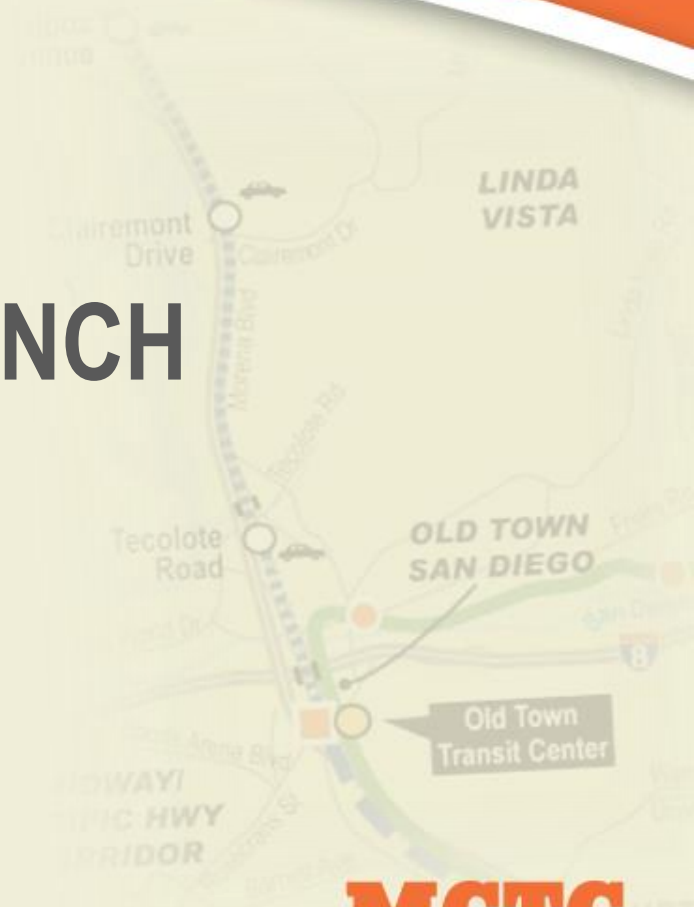

San Diego River Bridge Double Track

- Double Track Heavy Rail Bridge over San Diego River
- 1 mile of new double track
- Project is within existing MTS R/W and crosses under I-8

MCTC CONSTRUCTION BENCH FOR DBE'S & SBE'S

MCTC

Mid-Coast Transit Constructors
Stacy and Witbeck · Herzog · Skanska

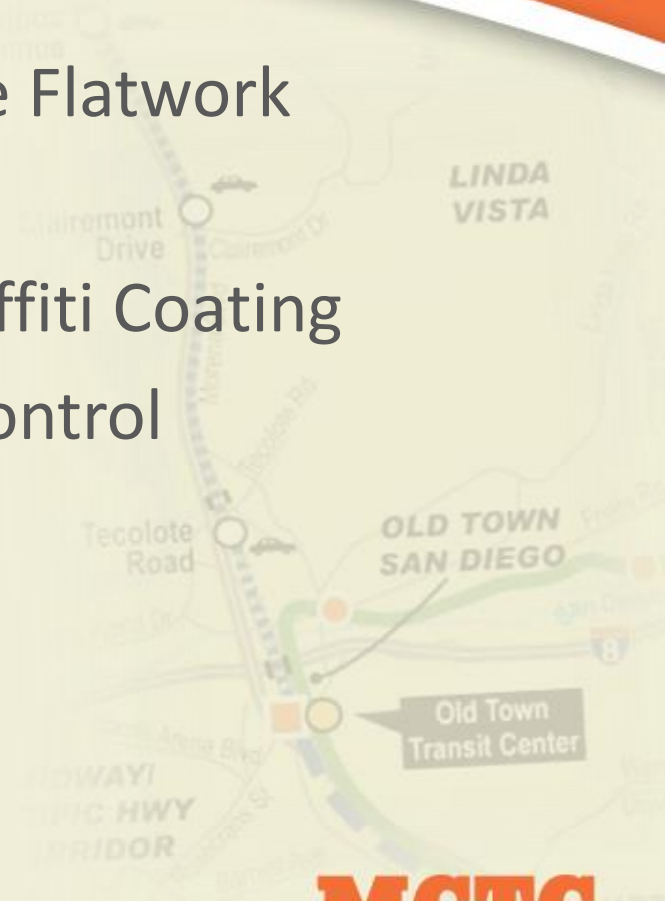

WHAT IS THE MCTC CONSTRUCTION BENCH? AND WHY?

- DBE & SBE Subcontractor and Supplier Pre-Qualification
- Qualified Firms are Short-Listed for Future Subcontracting Opportunities
- MCTC will reach out to the Construction Bench when certain subcontracting or supply scopes are needed
- Simplifies the procurement process for both MCTC and the DBE and/or SBE firms
- Quote-based bidding rather than proposals
- Bidding opportunities between 2016 and 2020

Note – Being qualified on the Construction Bench does not guarantee future bidding opportunities or contracts with MCTC

MCTC CONSTRUCTION BENCH SCOPES

- Clearing/Grubbing
- Tree Removal
- Fencing
- Landscaping/Irrigation
- Masonry
- Electrical
- Concrete Flatwork
- Painting
- Anti-Graffiti Coating
- Traffic Control
- Trucking

HOW TO GET ON THE CONSTRUCTION BENCH

Fill out the Construction Bench Questionnaire and submit to MCTC via the MidCoast Vendor Portal (Planetbids) by 01/29/2016

Qualifications:

- Identify your scope of work
- Confirm DBE and/or SBE status
- Confirm Buy America, certified payroll, and prevailing wage experience
- List any previous rail corridor experience
- Confirm Union status – must be signatory to at least one of the following crafts: Carpenters, Laborers, Masons, and/or Operators;
OR Sign a One-Time Job Labor Agreement
- List company safety statistics
- Confirm licensed, bonded, and insured
- List Department of Industrial Relations (DIR) registration number, Contractor's License numbers, and Company's NAICS codes
